

How to Configure Microsoft Outlook 2003 for your msn.com E-mail

Email Type:
@msn.com

Use this document if:

- You need to configure Microsoft Outlook 2003 for msn.com e-mail.

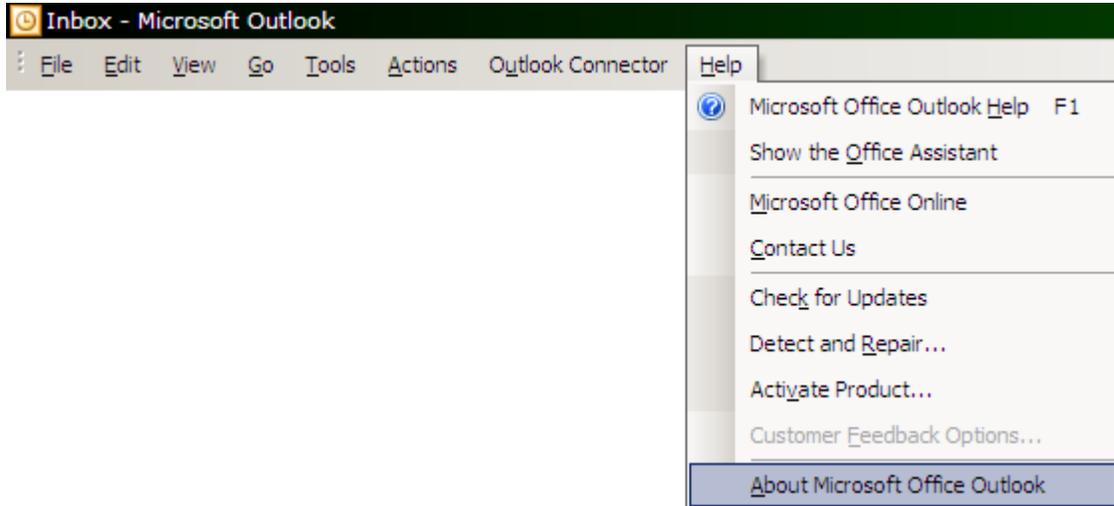

This document assumes:

- You know your msn.com e-mail address and password.
- You have a genuine activated copy of Microsoft Outlook 2003.
- You have a working Internet connection.
- Your msn.com e-mail address is associated with your Qwest DSL® account.

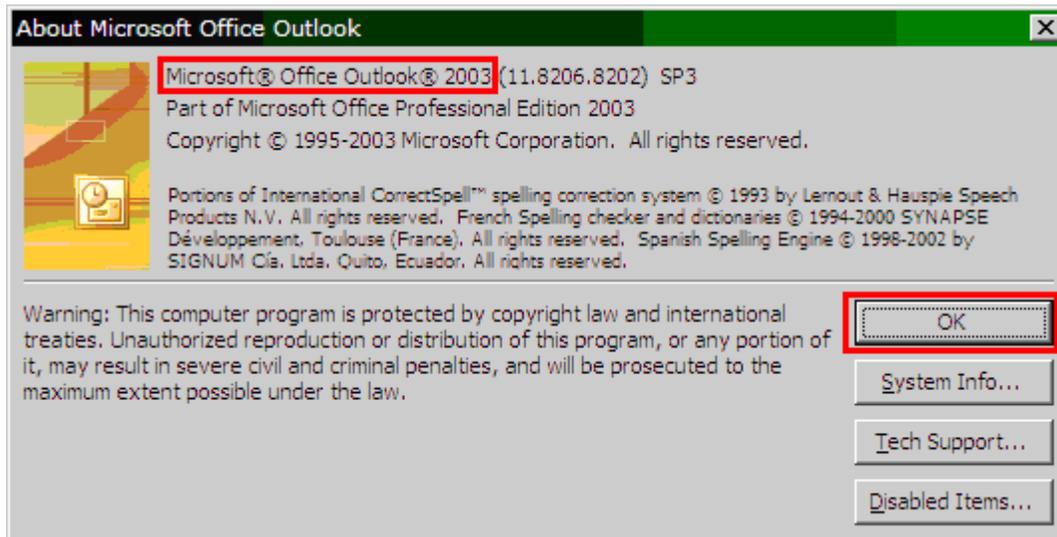

Incoming/Outgoing server info: If you are familiar with how to configure Outlook 2007, use the following information. If you need more help, continue reading.

- Incoming Server: pop3.live.com (SSL enabled)
- Outgoing Server: smtp.live.com (SSL enabled, requires authentication)

This document only applies to Microsoft Outlook 2003. To find out what version you are using, Select **Help**, then **About Microsoft Office Outlook**.

If the 'About' screen says 2003 like in the picture below, continue reading.

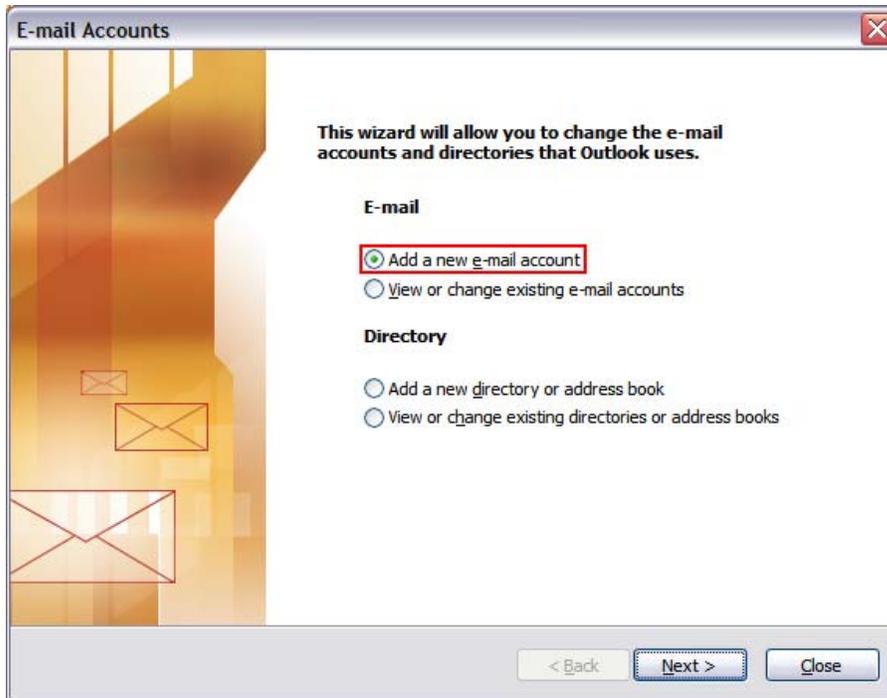

1. Open Outlook using the icon on your desktop or Start menu.

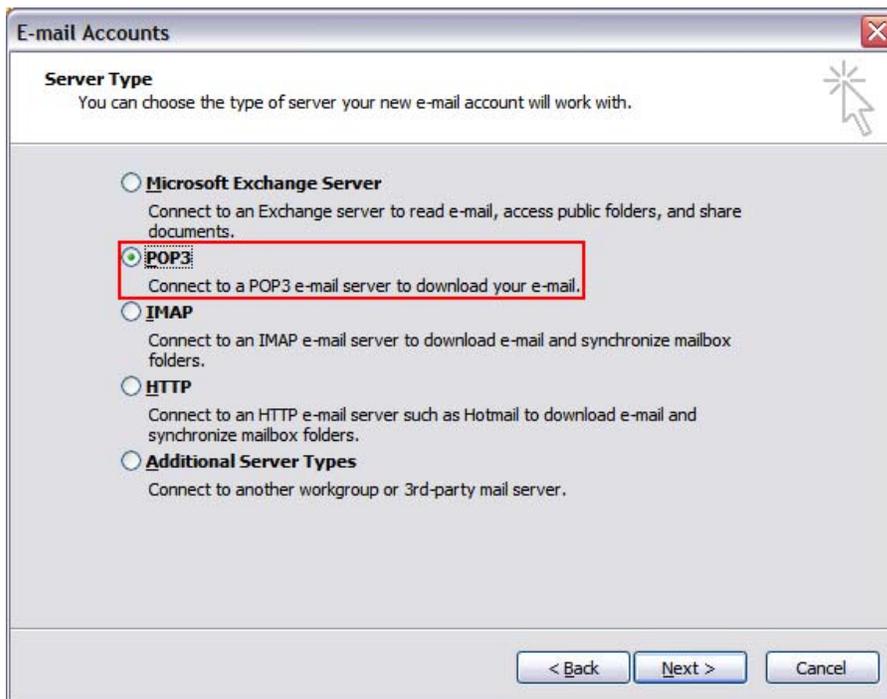

2. If this is your first time running Outlook, the new account wizard will start automatically. Otherwise, select **Tools**, then **E-Mail Accounts....**

3. In the 'E-mail Accounts' dialog box, select **Add a new e-mail account** and select **Next**.

4. Select **POP3** and select **Next**.

5. Fill in the following information:

- **Your Name:** Your name as you would like it to appear on outgoing mail (personal name, company name, etc.)
- **E-Mail address:** Your full msn.com e-mail address.
- **Incoming mail server (POP3):** This should be pop3.live.com
- **Outgoing mail server (SMTP):** This should be smtp.live.com
- **User Name:** Your full msn.com e-mail address.
- **Password:** Your msn.com password. (Remember, passwords are CaSe SeNSiTiVE.)
(Note: Check the **Remember Password** box to have Outlook automatically sign you in to your e-mail. Otherwise, you will need to type your password each time you start Outlook.)
- Do *not* check the **Log on using Secure Password Authentication (SPA)** box.

E-mail Accounts

Internet E-mail Settings (POP3)
Each of these settings are required to get your e-mail account working.

User Information	Server Information
Your Name: Qwest Customer	Incoming mail server (POP3): pop3.live.com
E-mail Address: customer@msn.com	Outgoing mail server (SMTP): smtp.live.com

Logon Information	Test Settings
User Name: customer@msn.com	After filling out the information on this screen, we recommend you test your account by clicking the button below. (Requires network connection)
Password: ***** <input checked="" type="checkbox"/> Remember password	
<input type="checkbox"/> Log on using Secure Password Authentication (SPA)	<input type="button" value="Test Account Settings ..."/>
	<input type="button" value="More Settings ..."/>

< Back Next > Cancel

6. Select **More Settings**.

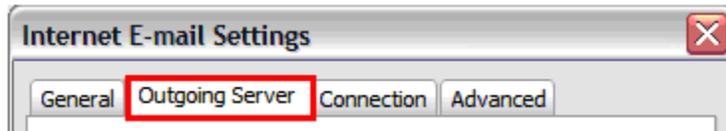

Remember password

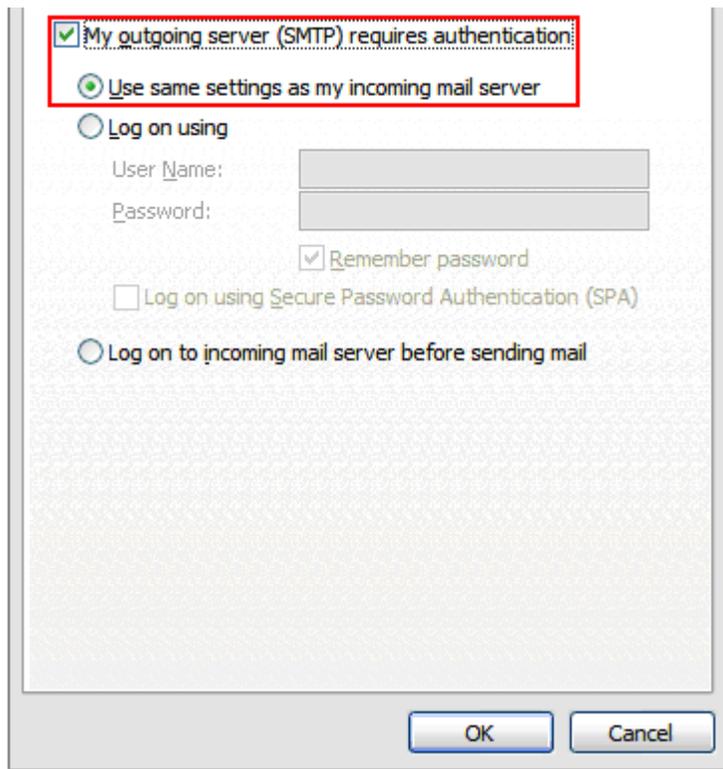

Log on using Secure Password Authentication (SPA)

< Back Next > Cancel

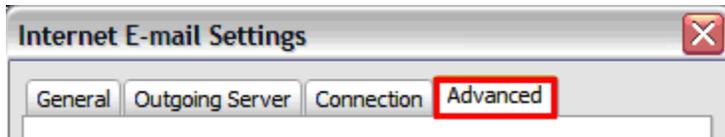

7. In the 'Internet E-Mail Settings' dialog box, select the **Outgoing Server** tab.

8. Check the box labeled **My outgoing server (SMTP) requires authentication**, then select **Use the same settings as my incoming server**.

9. Select the **Advanced** tab.

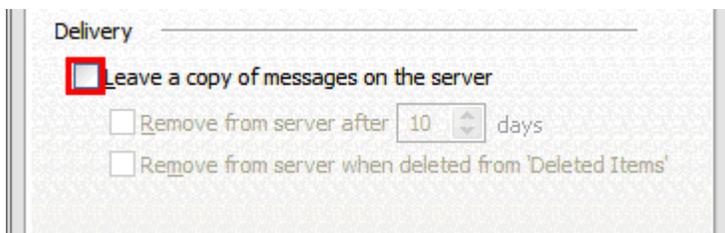

10. Check **This server requires an encrypted connection (SSL)**, then type 995 in the **Incoming Server (POP3)** box.

11. Check **This server requires an encrypted connection (SSL)**, then type 25 in the **Outgoing Server (SMTP)** box.

12. If you plan on accessing your e-mail from somewhere other than Outlook (Hotmail.com, etc.), check the **Leave a copy of messages on the server** box. Otherwise, e-mail will only be accessible through Outlook.

13. Select **OK**.

14. Select **Next**.
