

Microsoft® Internet Explorer 6 (IE6)

How to Turn Off Automatic Dial-Up

1. Select **Start**. Then, select **Control Panel**.

2. Double-click on **Internet Options**.

Internet
Options

Note: If you see text at the top of this screen that says “Pick a category,” select **Switch to Classic View** in the top left corner.

3. Select the **Connections** tab. Select **Never dial a connection**. Alternatively, you may select the **dial-up connection** and select the **Remove** button. Select **OK** to exit.
