

QWEST iQ INTEGRATED ACCESS

Your first step to IP Integration

With Qwest, you can find data, IP, local, long distance and international voice services – all from one provider. Choose from several flexible-term contract options and further customize the service based on the number of voice lines you require. Plus, Qwest iQ™ Integrated Access Packages allow you to transition from standard telephone service to voice over Internet protocol (VoIP) without the need to replace your current telephony equipment. Start building the foundation for a variety of enhanced communication services for your business today.

¹ Additional Line MRC listed above requires minimum 3-year term, and applies for all lines purchased above initial 6 lines.

² Promotional Offer: First 2000, 4000, 6000 or 7000 minutes of Off-Net outbound domestic interstate and intrastate long distance service waived per month determined by the number of lines purchased. Additional per minute charges apply for domestic Off-Net minutes over the amount waived, and for international long distance. Offer valid through 6/30/09.

³ Qwest® Managed Applications Standard Web Hosting plan is included upon request at no extra charge. Contract required. Other Web hosting plans and optional features and services, including Microsoft Exchange®, Microsoft Windows SharePoint®, e-commerce capabilities and additional storage space are available at an additional charge.

⁴ Caller ID, Call Forwarding, Call Waiting, and Single and Multi Hunt groups. Call Waiting and Single and Multi Hunt groups available with IA analog lines only.

⁵ Promotional Offer: Package pricing listed above requires minimum 3-year term, and includes DS1 or 2xDS1 Internet Port, rental of Adtran® 924e IAD with 8X5 NBD on-site maintenance, Pro Configuration Management (includes firewall and/or VPN configuration for the IAD), initial 6 VoIP lines and Local Access Service. Above pricing is after bill credits; excludes taxes, surcharges and other fees. Additional charges may apply, including long-distance calls to non-Qwest Integrated Access customers. Pricing assumes zero-mile Local Access Service priced at \$200 for DS1 or \$400 for 2xDS1. If Customer's site does not qualify for \$200 DS1 or \$400 2xDS1 Local Access Service pricing, an additional Local Access Service MRC will apply. Maximum number of lines available per port depends on Port speed, CPE and Codec selected. Installation NRC waiver available. NRC waiver does not apply to Extended Wiring charge. Offer valid through 06/30/09.

Qwest iQ™ Integrated Access Packages: Qwest iQ™ Integrated Access Packages are available to business customers in select areas across the continental U.S. Minimum one-year term commitment required. Early termination charges may apply. Packages include Qwest iQ™ Analog and Digital VoIP lines, Qwest iQ Networking port, Local Access, and rental CPE. Monthly charge based on configuration selected. Long-distance charges are additional. Additional equipment may be required. Other restrictions may apply. Call for availability and complete details. 911 service is governed by the terms of the Qwest iQ Analog and Digital VoIP Service Exhibit.

Managed Applications: This suite of hosted and premise-based applications includes messaging, file sharing, collaboration, Web services and e-commerce. Recurring charges vary, depending on the services ordered. In addition to monthly recurring charges, additional charges may apply for services not covered under the service descriptions. Available to business customers throughout the domestic U.S. An Internet connection through an Internet service provider is required, and may be acquired from Qwest or another provider of your choice. A contract is required. Additional restrictions and availability requirements may apply.
