

# EVERYWHERE LINE®

*Our records indicate that you have selected some of our most popular services and are now a Qwest® Everywhere Line customer! The Qwest Everywhere Line includes CustomChoice® and Qwest Wireless™ service. Whether in your car, in your home or unavailable, Qwest Everywhere Line features help you customize your wireless or home telephone service to the needs of your busy lifestyle. Qwest Everywhere Line is designed to add value, convenience and flexibility to your Qwest phone services. Qwest products make communication easy. Everywhere Line makes it even easier.*

- **CustomChoice** includes your home phone service, and many of Qwest's most popular and useful features, including Caller ID, Call Waiting, Priority Call, 3-Way Calling, Speed Calling, Call Rejection, Call Forwarding, Long Distance Alert, and many others.
- **Qwest Wireless** offers a choice of several wireless plans. Most of the Wireless plans selected with Everywhere Line are priced at a 10% package discount.

We're sure you'll enjoy the special package savings that Everywhere Line and our other Qwest packages will add to your Qwest phone service compared to purchasing these features separately. Thank you for making Qwest your telecommunications provider of choice.

**1 800-244-1111** for customer assistance  
**qwest.com**

Package price based on comparison between individual component prices and package price. Offer valid for residential customers with Qwest wireline service only. Prices and package components subject to change. Customers must continue to subscribe to all components of Everywhere Line®. If customer cancels a component, the Package will be cancelled and remaining component will be billed separately, and customer may be migrated to a different package, or a different Wireless price plan. Everywhere Line: price does not include other charges such as CALC, zone increment, EAS, USF, PICC or taxes or specifically required equipment such as Caller ID unit or wireless handset. The Caller ID unit shows the listed name and number of the phone line your caller is using. Not all calls are displayed or logged. Discounted Qwest Wireless™ plan price available only while customer retains all portions of Everywhere Line package. Calls timed from send/talk to end/off. Completed calls are billed in full minute increments rounded up to the next minute. Additional minutes are 40 cents per minute. Wireless long distance at no additional charge from Qwest extended home coverage area for U.S. calls only with Qwest LD; long distance calls count toward included and additional monthly minutes. All roaming charges apply. Your Service plan applies to a "Home Coverage Area," a geographic area in which the features and benefits of your Service plan apply if you are on the Qwest network. Qwest coverage areas are shown on the coverage maps included with your Wireless Phone and also on our Web site. Coverage maps are an approximation of Qwest's network, not a guarantee of service availability. You may be unable to place calls on Qwest's network, even in your Home Coverage Area. If you cannot place calls on Qwest's network, you may be able to place calls through other providers by "roaming." Roaming is not available in all areas. You may not receive calls while roaming and your Service plan features and billing advantages may not apply. Roaming charges, which may change without notice, will apply. Your Wireless Phone is set to allow roaming calls automatically. To avoid roaming charges, consult your Wireless Phone's user manual for instructions on disabling automatic roaming (but if you disable roaming, you will not be able to place calls if you cannot connect to Qwest's network). See Terms and Conditions for complete details. Long distance and roaming charges may apply.

**Voice Mail:** Requires touch-tone phone. Long distance charges apply for customers who access their service from outside local calling area. Other limitations and restrictions apply. Some services not available in all areas.
